

## **CDM SITE MANAGER WITH ENGINEERING & HEALTH & SAFETY (PERMANENT POSITION)**

**Salary:** circa £50,000 per annum

**Location:** Thames Valley

**Qualifications:** Engineering Qualification and NEBOSH (or equivalent)

**Start Date:** ASAP

This is an opportunity to share your commitment to engineering excellence and site safety. You will be a key member of the team of manufacturing engineers working within our engineering consultancy on varied and interesting engineering projects.

### **Required**

- Minimum 5 years' as a project engineer or site supervisor/manager
- Engineering qualification: HND or good relevant Apprenticeship or Degree
- Both Mechanical & Electrical qualifications preferred
- Knowledge and experience implementing CDM 2015
- Excellent knowledge of Health & Safety requirements in manufacturing environments
- Ability to assess mechanical & electrical competence in others
- Excellent communication and people skills
- Experience in a food, pharma or similar manufacturing environment
- Experience of technical skills training
- Experience of H&S Audits

### **We will be looking for:**

- A track record highlighting, investigating and resolving safety issues
- Experience of Risk Assessments and Method Statements and Safe Systems of Work.
- Experience handling 3rd party contractors, ensuring H&S compliance, including site inductions, auditing of the work area, weekly reviews and tool box talks
- You will be working across multiple client sites and therefore willingness to work flexibly and ability to undertake travel in the UK is essential.
