

Graduate Trainee - Advanced Manufacturing Consultancy

Starting salary £28K, rising to £30K after 3 months. Good Engineering degree essential. 25 days holiday + bank holidays. Flexible working. Training and Development framework and training budget. Profit Share. Company socials.

Based in the south east of the UK. Full-time, permanent. Start date 1 September 2022

J P Hildreth Ltd is a vibrant and growing engineering consultancy. We are one of the UK's leading manufacturing consultancies, employ 40 engineers and turn over £4M. We work for prestigious clients like Mars & GSK.

Why J P Hildreth Ltd:

Talented engineering graduates will thrive on the constant variety and challenge.

You will develop skills in project management while helping to introduce manufacturing innovations into the pharmaceutical and food sectors.

Fast track to Chartership

Working in consultancy is one of the fastest ways to build your management and communications skills, alongside your professional engineering knowledge. Jobs in consultancy are well paid.

What we expect

A good engineering degree in any of the following: mechanical, electrical, controls, automation, chemical.

Plus curiosity and the ability to listen carefully and communicate with accuracy and clarity.

We aim to combine the gravitas and problem-solving skills of professional engineers with a knowledge of business.

Culture & Values

You will join a Company that cares deeply about its employees and has a distinctive, inclusive culture. The company's values of integrity, clarity and simplicity guide all the decisions we make. Our long-term relationships with clients are based on integrity and respect. We care about the community and aim to share our success. A significant sum each year is donated to charity.

Come and join us. Send your CV and a covering letter to recruitment@jphildreth.com www.jphildreth.com
