

## Senior Project & Validation Engineer

**This is a dual role covering both pharmaceutical project and validation engineering**

You will be joining J P Hildreth Ltd, a growing engineering consultancy specialising in manufacturing technologies.

**Salary: £45K to £50K**

**Location:** Hybrid working home & office & client site.

### Overview

You will be working as a specialist engineer in a pharma manufacturing R&D environment with constant exposure to new machines, new techniques and constant variety and opportunities to learn. You will be working with a complex network of stakeholders across client organizations.

Because this is a client focused, the ability to speak and write clearly and accurately, and to prioritise tasks, is essential. Our clients expect us to drive projects forward and demonstrate resilience, determination, and ingenuity.

### JOB DESCRIPTION:

- **Provide** leadership to project team members ensuring objectives are met.
- **Lead** the identification of project risks.
- **Responsibility** to mitigate or reduce risks.
- **Review** the project scope of works to ensure client / stakeholder requirements are met.
- **Dual** role requires hands on and project leader duties.
- **Oversee** a portfolio of manufacturing projects.
- **Coordinating** people and resources.
- **Validation** drafting and gaining approval of protocols, risk assessment and other documents.
- **Executing** Installation & Operational Qualification Testing.

### SKILLS & QUALIFICATIONS REQUIRED:

- **Experience** ideally at least 3 years in pharma, healthcare or regulated environment.
- **Knowledge** & experience of Health & Safety requirements in manufacturing.
- **Bachelor's** degree in one of the following: Engineering, Chemistry, Computer Science, Life Sciences

### About J P Hildreth Ltd

We are one of the UK's leading manufacturing consultancies and employ 40 engineers, technologists, and validation specialists. We work for major companies like Mars & GSK. We help define capital investment projects, deliver them and track benefits with certainty. Our engineers install and validate advanced manufacturing technology from around the world.

We are a positive, look-ahead, company. People like to work for us. We invest in training and development. We react swiftly to opportunities, make the most of good ideas, and play to people's strengths. [www.jpchildreth.com](http://www.jpchildreth.com)
